

# Adboard

## Installation Instructions

### Adboard Diagram

Example shows an AI Adboard & fixing kit

### Assembly

1. Check the contents. Kit includes: base, channel frame, Allen key, 4 screws, mounting board and posters. Weight shelf supplied with AI Adboard only.
2. Slide the posters and mounting board into channel in the frame.
3. Place the frame and adboard onto the base, use the four screws supplied to secure. Tighten with Allen key - until channel frame is solid.
4. Push foot inserts into base of channel frame.

**Note** - AI Adboard has a weight shelf underneath which allows 1.5 litre PET bottles (filled with water) to be wedged into for improved stability

### Change poster

1. Using the Allen key supplied, loosen screws and remove frame from base.
2. Slide out posters and board.
3. Place posters in the centre of the board and use strips of double sided tape to hold in position.
4. Re-assemble as above.

**Note** - If you have ordered posters with your adboard, these are supplied laminated to reduce fading and water damage for 12 months from date of purchase. New posters are available via your news wholesaler or call 01985 248 454.

### Safety

1. Store Adboard away in strong winds.
2. Ri Manufacturing take no responsibility for your local authority permitting you to display the unit.
3. Please ensure you position Adboard responsibly.
